- Contributed to containerized microservices deployed on **AWS EC2**.
- Assisted in implementing authentication using **OAuth2 and JWT**.
- Helped improve API performance, caching, and database efficiency.
- Supported junior developers through code reviews and knowledge sharing.

Software Developer – Backend

Dec 2023 – Jul 2024

- Worked on ATS backend services using **Laravel and Redis**.
- Developed background jobs and automation workflows.

Junior Backend Developer

Jun 2023 – Nov 2023

- Assisted in developing RESTful APIs and backend services.
- Supported resume parsing and reporting modules.

Key Projects

Five9 Studio 7

Oct 2025 – Present

is an enterprise contact center workflow and IVR orchestration platform.

- › I am working on modules that support IVR workflows, call routing, and automation logic.
- › I am assisting with real-time telephony integrations and improvements in observability.

TalentInCloud ATS

2024 – 2025

Recruitment SaaS platform.

- › Contributed to backend services built with Laravel and Node.js.
- › Supported job board integrations and background processing.

PickRight

2025

: AI-powered resume screening platform.

- › Worked on REST APIs and candidate evaluation workflows.

Education

BSc in Information Technology & Management

Jun 2020 – Jun 2023

Computer Application Center, Utkal University

Certifications

- › AWS Certified Cloud Practitioner (In Progress)
- › JavaScript Algorithms & Data Structures — freeCodeCamp
- › MongoDB Essentials, Git Essentials, Full Stack Training

Languages

- › English (Professional)
- › Hindi (Professional)
- › Odia (Native)
